

MISSION STATEMENT

To be a global technology leader in designing and manufacturing quality world-class products, subsystems, components, and photonic modules for telecom, industrial, automotive and aerospace applications while meeting or exceeding our customers' expectations. This will be achieved by encouraging innovation in the field of communications, fiber lasers, fiber laser amplifier, LiDAR, and optical sensors of automotive applications.

QUALITY POLICY

ITF Technologies is a world-class supplier of fiber optic components and sub-systems for the telecommunications, industrial, automotive and aerospace markets.

The management team of ITF Technologies is fully committed to achieving and maintaining the highest standards for our products and seeks to meet or exceed our customers' expectations as well as all other applicable requirements. Our top priority is to ensure customer satisfaction through innovative products of high quality standards by continually improving the effectiveness of its Quality Management System.

ITF conducts its business in a socially responsible and ethical manner. We respect the law, support universal human rights, encourage diversity, protect the environment and benefit the communities where we work.
